Workday – General Questions (FAQ)

How much can I write in the open text boxes?

You can enter an unlimited amount of text in the text boxes. However, we want to make sure you focus on conciseness and quality rather than writing unnecessary details in the text box.

Does Workday have spell-check?

No. if you want to ensure you are spelling words correctly, we recommend starting in a word document and then cut and paste text into the text boxes within Workday.

Workday – Career Profile (FAQ)

1. Navigate to your Employee Profile by clicking on your name/picture in the upper-right hand corner. Click on **View Profile**.

Workday – Self Evaluation (FAQ)

How do I view and print my current and/or past Performance Reviews?

1. To view a consolidated list of all *active* goals, click on the **Performance worklet** from the Workday homepage

General Workday Navigation

2. Under **My Reviews**, you will see a list with your current and past Performance Reviews. Select the review you wish to view/print.

Do I have to acknowledge my Performance Review in Workday if I don't agree with the information my manager entered?

Yes. The acknowledgment step does not mean you agree with what your manager entered. Rather, you are stating you have taken part in the process. If you don't agree with the information entered in your annual Performance Review, we recommend you discuss with your manager and/or HR Business Partner. You also have the option to add comments when completing the acknowledgement step.

Potential Ratings (FAQ)

If I'm not mobile today but will be in 3+ years, can I be classified as a High Potential?

No. Since there are many factors that feed into determining potential (mobility being one of them), this rating is dynamic and can be updated at any time throughout the year. If you are not mobile now, you would not receive the High Potential rating. If/when that changes for you, you would have the opportunity to be rated High Potential in consideration with all of the High Potential criteria.

To be classified as a High Potential am I required to be globally mobile?

Yes, in most cases. The High Potential rating indicates high mobility without a lot of restrictions. However, there are many critical roles within each country so it will depend on the type of role you are in and aspire to be in. Our business strategy will drive where future positions will be located and the types of experience needed for these roles. Some will require global experience, some may not.

If I agree to unrestricted mobility, will I have the opportunity to evaluate opportunities before I accept the position?

Yes, you will have the opportunity to evaluate the opportunity in total. Having said that, we do not want individuals to say they are open to mobility, when they really aren't. We want an open dialogue between manager and employee so we can understand the lay of the land and strategize to match business needs with individual career paths as we evolve to an \$8B organization.
